17 April 2014

Our Ref. : EA/2014/38/SECR/MB/SA  
Subject: Decision on MLA signatory status

Dear Jurgis,

During its meeting held on 9–10 April in Warsaw, the MLA Council considered the outcome of the re-evaluation of LA.

Based on the evaluation report and the additional report provided by the TFG appointed to review the evaluation report, the MAC Members confirmed that LA fully complies with EA requirements and that sufficient confidence is gained with respect to the operational and technical performance of the accreditation activities covered under the EA MLA.

Therefore I am pleased to inform you that LA remains an EA MLA signatory in the fields of calibration, testing with the exception of medical laboratories according to ISO 15189, inspection and certification of management systems, products and persons.

The next re-evaluation visit will take place in 4 years after the original scheduled re-evaluation date.

Best regards

Martine Blum  
EA MAC Secretary
